Each piece is offered in a stocked finish, which is available for immediate delivery. The stocked finish varies by piece depending on the style and is either a combination finish consisting of our mid-tone, brown, finish called Brownstone contrasted with our crisp, Oxford White finish or just Brownstone. Of course you may also order these pieces in any of Century’s finishes, by selecting the Made to Order option.
With its style rooted in serenity and sophistication, Aria, is a modern collection of timeless designs. Graceful, simplified, design sensibilities are married with beautiful American walnut, the best time-honored craftsmanship and then enhanced with a rich, soft, hand rubbed finish. The cases are crafted of Beech solids and quarter cut American Walnut straight grain veneers, selected for their minimal, controlled grain patterns. The hardware is a decorative polished nickel knob and on some cases a polished nickel with gunmetal accents, both of which accentuate but do not distract. Each piece of Aria is a lesson in controlled design. Meant to work alongside fine antiques or more modern pieces, Aria is today’s timeless.
See Price List for complete details on all components.
