G U L F S T R E A M

Gulf Stream takes you on a cruise along the coastal and inland waterways, lakeshores and riverfronts throughout the world. Its maritime architecture translates yacht railings into classic nautical furniture.

Evoking images of the early 20th century transoceanic voyages, Gulf Stream captures the spirit of a time when virtually all intercontinental travel took place via ship or luxury liner. Gulf Stream brings this experience home.

SAILCLOTH FABRICS

Recommended for all outdoor collections

Sailcloth - Sail
17000-29

Sailcloth - Shell
17000-12

Sailcloth - Sand
17000-21

Design Elements:

- Gulf Stream's maritime heritage translates nautical railings into classic furniture that is equally at home in the living room or on the lanai.
- Brilliant stainless steel crafted in forms that combine striking vertical and horizontal planes with soft curves to create furniture that is both classic and modern.
- Heavy-wall, 304-marine grade stainless steel that is buffed to a spectacular bright-work polish yields a collection of unsurpassed beauty and durability. Stainless steel is a natural, nontoxic and 100% recyclable material.
- Designed to the discriminating standards of the finest indoor furniture, yet built to withstand the rigors of full-time outdoor exposure. With only limited maintenance, Gulf Stream will retain its bright luster for many years.
- Generously proportioned and scaled for a luxurious experience. Oversized Leisure Plush™ cushions on all seating are constructed from densified polyester fiber, which is both waterproof and compliant with CAL 117 flame retardant standards.
- Frost-finished aquatint tempered glass enhances the stainless steel frame of each table.
- Versatile product offerings for indoor or outdoor placement.
- Complementing this collection is a wide offering of high performance Sunbrella® fabrics, which are woven from solution-dyed acrylic fiber that resists fading, deterioration and mildew.

The collections of Richard Frinier for Century Leisure bring home the emotional experience and ambience of world travel. The look is fresh and memorable. Upon first view, these collections take you to a place where you have never been, yet you feel relaxed and at ease to linger.

Century Furniture represents a true benchmark in fine home furnishings. A natural extension of that, the Richard Frinier for Century Leisure collections bring a new level of quality and sophistication to leisure furniture.

Richard Frinier's collections embrace the luxury of world travel, capturing the value and sheer emotion of quality leisure time. These fine furnishings, worthy of the finest estates, residences, hotels, resorts and spas worldwide, bring leisure to a new level of appreciation and enjoyment.
